

The methodological guide is addressed to directors and other members of the pedagogical leadership of schools as a guide in fulfilling one of the important tasks – the care of the pedagogical development entrusted to the schools and the associated professional development of teachers. This methodology should help the managers of the school to fulfil their role in the professional development of teachers through the career system of teachers and standard of teachers. The manual is focused on the role and responsibility of school management in improving the quality of educational work of the school and professional development for teachers so, how does it provide for the binding of school documents.
