This week, on June 9, a representatives from VET schools in Olomouc region will be introduced with EU initiatives in regard to quality in VET. Participants will be introduced to the Benchmarking tool developed within the project BEQUAL.net and will have a chance to evaluate the tool.

If you represent VET organization, we kindly ask you to try and test the tool by registering on www.bequal.info page not only to benefit from the usage of the tool, but also to help us recognize possible errors or imperfections in the content and functionality of the Benchmarking tool!

Thank you in advance Hana Čiháková Educational Association Prague, Czech Republic
